

Our Local Impact

At Big Brothers Big Sisters of the Ozarks, we are driven by a steadfast belief in the incredible potential within every child. Our mission is to create and nurture meaningful connections between adult volunteers—our cherished "Bigs"—and children, or "Littles," from ages 6 through young adulthood in our community. These life-changing relationships not only shape the lives of young people but also strengthen the fabric of our community.

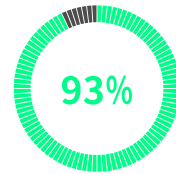

By partnering with parents and guardians, dedicated volunteers, and community supporters, we hold ourselves accountable for helping every child in our program achieve higher aspirations, build greater confidence, foster better relationships, avoid risky behaviors, and succeed academically.
